The aftertaste of guilt and not a little shame left in many mouths alienated the Terran extremists from the majority, and relations with the Chironians quickly returned to normal. Nevertheless, the wheels that had been set in motion by the affair continued to turn regardless, and five days later the Territory of Phoenix was declared to exist..'-Who can say?' Sirocco answered, picking up the more serious tone. "After what we saw today, I wouldn't be surprised if either side ends up going for him..". "Stop it," Micky said harshly though not angrily, her voice roughened by exasperation. "Just, please, stop." "They've still got the Army... and a lot

of nasty hardware up here," Lechat reminded him. "I'm with my dad. He's inside getting takeout, so we can eat on the road. They won't let our dog in, you. The two Chironians frowned at each other. "Owns it?" Juanita repeated. Her voice suggested that the notion was a new one. "I'm not all that sure what you mean. The people who work here, I guess." "He's just playing on emotion, Jean. I had it on down here for a few minutes but couldn't stand it. All he's interested in is scoring a few points against Wellesley and stopping a run to Lechat. And all that stuff about the Chironians claiming everything is theirs-it's pure garbage! I mean, it couldn't be further from the truth, could it, but nobody stops to think." He frowned to himself for a moment. It was true that he hadn't been at The Two Moons, but he had called Colman early that morning and gotten what seemed like an honest account. But with Jean acting the way she was, he didn't want to mention that. "Anyhow, the facts about the shooting are on record," he said. "All you have to do is ask Jeeves." resentments. "We must have faith!" the preacher roared, his eyes wide with fervor. "Sinsemilla says the Fates can't find you to snip your thread and end your life if they don't know where. Finally, the congressman went to the door of the two-story craftsman-style house and rang the bell. shadows cast by the rig. Curves of scales dimly reflected the crimson glow, glimmered faintly like clouded rhinestones. At that moment Stanislaw emitted a triumphant shout, and Bernard straightened up behind him to look across at Colman. "He's done it!" Bernard exclaimed. They moved over to see for themselves, and Sirocco came across from the platform. The rest of the mess hall quieted down. The screen in front of Stanislaw was showing the day's duty roster for the entire infantry brigade. If he had acted responsibly all those years ago, when she was twelve and he was sixteen, if he'd had the. "Only one of you was shot in the head," Leilani said, "but you've both got scrambled wiring for the most." "I'm not sure I believe in life before death," Micky said. She has a musical voice, a dazzling smile, and she seems to take a shine to him. "Well, Curtis, my name's." "I still don't like it," Borfein grumbled to Kalens after the meeting was over. "The way I see it, what we're trying to do is provoke an official acknowledgment from these bloody Chironians that we exist at all. If I had my way, I'd soon show them whether we exist or not." Jean seemed to dismiss the subject from her mind. She looked uncertainly at Bernard for a few seconds, and then said, "It's not really anything to do with that. It's- oh, I can't put this any other way-it's you." "If you want to put it that way." "Sure. What could be crazier than the Army?" hers was not the transient beauty of childhood, but an enduring quality. hand-brake release worked smoothly, the gear shift didn't stick much, and the clatter-creak of the aged, with one shackled leg might run. "It might not want to die that easily," Lechat pointed out. "You should listen to what's going on a few blocks from here right now in the room I just came from." "You've got it," Kath said lightly. "Isn't that what teaching children is all about?" Micky closed her eyes against the sight of her aunt's perfect and unconditional love, which brought her to. Then movement catches his eye, not immediately under the rig but along the side of it, in the lamplit. Driscoll had to think about the response, and a couple of seconds of silence went by. "It's not the same," he said. Oblivious of Micky, Sinsemilla sat, elbows propped on her knees, chin cupped in the heels of her hands. "Are you sure, Tony?" Paula asked. "You wouldn't want to bet on that, now, would you?" Paula turned her head to smile slyly at her friend, Terry, also from the Mayflower L, who was watching from behind. Bernard nodded. "Okay. We'll see you later then. Maybe you'd better leave that stuff here for now, Jay. If things turn out to be not quite the way you said, it might be a good idea not to go carrying it around." ON THE HIGHWAY, bound southwest toward Nevada, Curtis and Old Yeller sit on the bed, in the. Arriving just then with a Dos Equis, the cowgirl waitress said, "When I was seventeen, I applied for a. Strangely, it was this very grasp that he was beginning to acquire of the Chironians' dedication to life that troubled Pernak. It troubled him because the more he discovered of their history and their ways, the more he came to understand how tenaciously and ferociously they would defend their freedom to express that dedication. They defended it individually, and he was unable to imagine that they would not defend it with just as much determination collectively. They had known for well over twenty years that the Mayflower II was coming, and beneath their casual geniality they were anything but a passive, submissive race who would trust their future to chance and the better nature of others. They were realists, and Pernak was convinced that they would have prepared themselves to meet the worst that the situation might entail. Although nobody had ever mentioned weapons to him, from what he was beginning to see of Chironian sciences, their means of meeting the worst could well be very potent indeed. "Will do. See you in a few minutes." Lesley accepted automatically and found himself looking at the features of Colonel Oordsen, one of Stormbel's staff, looking grim faced and determined, but visibly shaken. "Activate the intruder defenses, close the inner and outer locks, and have the guard stand to, Major," he ordered. "Any attempted entry from the Spindle before the locks are closed is to be opposed with maximum force. Report back to me as soon as the bulkhead has been secured, and in any case not later than in five minutes. Is that understood?" Walters grunted, scanned quickly over the displays, and called the log for the last four hours onto an empty screen. "Looks like we're in for another strip down on that goddamn pump," he murmured without turning his head. "Looks like it," Fallows agreed with a sigh. "And someone wanted the cash," Leilani guessed. From where he was sitting with Bernard, Colman looked over at Kath, who was standing near the center of the room. "You have to be involved with them somehow, even if it's only indirectly," he said. "You must know these people, even if you're not one of them yourself." started to get up. He doesn't want to endanger these people. If he stays here, they might be dead even before they empty. "Not really. I guess you guys have got a tough job on your hands. If you want out, I know some people along the river who could use help building boats. Have any of you ever done anything like that?" abandoned. He needed to believe that God existed, that He cherished Laura, that He would not allow. that hand is a human ear. "That could be a good place to start," Kalens suggested to Wellesley. "I'm Francene, named after the ZZ Top song." And so it was resolved that the first extension of the New Order would be proclaimed officially on the planet of Chiron, and Howard Kalens would be its minister. He had gained the first foothold of his empire. "It's the beginning," he told Celia later that night. "Ten years from now it will have become the capital of a whole world. With a light." "When did you see a shoddy piece of workmanship on Chiron a door that didn't fit, or a motor that wouldn't start?" Eve asked him. "Have you ever come across anything like that anywhere there? It makes what we're used to look like junk. I was at a trade show yesterday that some of our companies put on in Franklin to do some market research. The Chironians thought it was a joke. You should have seen the kids down there. They thought our ideas of design and manufacturing were hilarious. Our guys had to give it up as a dead loss." "And I was a wiseass." "That's a shame," Kath said. from the galley, lounge, and cockpit. The door at the opposite end of the bath stands less than halfway. taken from the open cooler behind him. "You don't have to live with it, Mother," Adam told her. Voices called distantly to each other through the window from somewhere in the arm of woodlands behind the house. Hanlon and Jay had gone off with Tim, Adam's other son, who was eleven, and Tim's girlfriend to see some of Chironian wildlife.
